DIMHRS

Defense Integrated Military Human Resources System

PREVIOUS DEPLOYMENTS HIGHLIGHTED HR/PAY SHORTFALLS ACROSS THE COMPONENTS

- The inability to track Active and Reserve component status changes
- Same Soldier in multiple Component databases; Multiple HR systems with redundant data entry
- Slow and inaccurate processing of personnel and pay transactions
- Inaccuracies during mobilization and demobilization of Reserve Soldiers
- Problems accessing personnel information during deployments

DIMHRS SOLUTIONS

- Providing an integrated Active, Reserve and National Guard personnel and pay system; Provide seamless transition of personnel between components; Seamless strength management and accounting
- Single, Comprehensive personnel record of Service; Eliminates redundancy in data entry
- Enabling greater flexibility for the Soldier through self-service capabilities; Significant decrease in the amount of time needed to complete your HR transaction; Accuracy in your Record of Service and your pay
- Streamlined mobilization and demobilization personnel transactions
- Operational in deployed, as well as garrison environments; 24/7 Web-based access
